Dear [Senator's Name],

I hope this message finds you well. I am writing to express my deep concern regarding the potential cuts to Medicaid and to urge you to consider the critical importance of this program for the people of Alaska.

Why Medicaid Matters to Alaskans:

- Essential Health Coverage
    - For many Alaskans, Medicaid is a lifeline for accessing necessary medical services, including preventive care, mental health support, and treatment for chronic conditions.
- Economic Stability
    - Medicaid supports local healthcare facilities and jobs. Cuts could jeopardize employment opportunities in our communities and strain local economies.
- Public Health
    - Maintaining Medicaid is vital for ensuring the overall health of our community. By providing access to healthcare, we can prevent the spread of diseases and reduce long-term healthcare costs.

While some may argue that cutting Medicaid could incentivize private healthcare options, it's crucial to understand that many low-income Alaskans simply cannot afford alternative plans. The risks of worsening health outcomes and increased economic strain far outweigh any potential benefits.

If you have a personal story about someone you know or you yourself who are on Medicaid and feel comfortable sharing, please do here

I urge you to prioritize the health and well-being of Alaskans by opposing cuts to Medicaid. Together, we can ensure that every Alaskan has access to the care they need.

Thank you for your time and consideration.

Sincerely,
[Your Name]
